SecureDT Groq API Setup Guide

Version 1.0

1. What is Groq Cloud?
Groq Cloud is a hosted inference service providing fast LLM access via API.

2. Why Groq is used?
Optional AI enhancement layer for natural-language explanations and risk commentary.

3. What part uses Groq?
AI engine explanations via /api/ai/explain.

4. What does NOT depend on Groq?
Core security, scheduling, attack simulation, Digital Twin all work offline.
